

# The ElectroComp Symphony

*In the Studio, or in the Classroom,  
whether you are well established, or just getting started,  
ElectroComp offers you a whole Symphony of Sound possibilities.*

**EML-100/100A Performing Synthesizer.** Pre-patched performance instrument with *all* the features. All functions have inputs and outputs available for greater flexibility. The EML-100, as option for the EML-200 Studio Synthesizer, is available for \$625. The EML-100A stands alone at \$795.

**EML-200 Studio Synthesizer.** Rugged, reliable and user proven. Fifteen functions, packaged for portability, provide the

building blocks of music. Readily used by beginners, more *fun* for the old pro. Easy to own and enjoy at \$999.

**EML-300 Manual Controller.** Versatile option for the Studio Synthesizer. Adds flexibility and keyboard capabilities for the Educator without compromising compositional creativity. Note generation self-contained. Twelve and sixteen key versions at \$275/\$325.
